"Susan Stromberg, an internationally honoured sculptor and writer, is widely known and appreciated for her acute perception and sensitivity. Her sculpture and writing, like the artist herself, is introspective, philosophical, and intellectual. An intense appreciation of spirituality empowers her to create images from the depth of her subconscious mind. A vigorous imagination in perpetual motion produces an ability to translate subtle thoughts and elusive complex passions into Bronze, Aluminum, Copper, Steel, Marble, Wood...and more recently: Photography"
